

Friends Don't Share Germs - Remember to Use a Tissue Visual Aids for Kids with Autism

Remember, Friends Don't Share **GERMS**

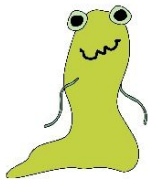

If I cough or sneeze, I'll cover my mouth with my elbow or sleeve.

When I have a runny nose, I'll grab a tissue.

Picking my nose is gross. It can make me and my friends sick.

FRIENDS DON'T SHARE GERMS.

They're gross & slimey like wrigley worms.

When I'm all done, I'll throw the tissue away.

Then I'll wash my hands with soap & water.

Friends Don't Share Germs - Remember to Use a Tissue

Visual Aids for Kids with Autism

1. Print out and laminate
2. Tape or use velcro to apply to tissue box
